

## FOR IMMEDIATE RELEASE

# Diebold Selects Texas Digital Systems as Preferred Digital Signage Software Vendor

(May 2, 2007) College Station, TX - Texas Digital Systems, Inc., announced that Diebold, Incorporated (NYSE: DBD) has selected Texas Digital as a preferred digital signage software vendor. Digital signage solutions interface with Diebold's RemoteTeller<sup>®</sup> System and pneumatic tube applications enabling banks and credit unions to deliver information about products and services in an engaging and informative manner to educate and motivate customers and members.

"Being chosen as a preferred digital signage software vendor by Diebold is a significant accomplishment that validates Texas Digital as a market-leading digital signage solution," said Dennis Davidson, President and Chief Operating Officer of Texas Digital. "We're delighted that Diebold has selected Texas Digital to bring additional value and innovative services to their customers."

Texas Digital's VitalCAST software manages and delivers a variety of information, including advertising messages, video files and broadcast feeds to LCD and plasma displays in lobbies, teller areas, drive-up lanes and any other indoor or outdoor location. VitalCAST also delivers content to Diebold's drive-up system, giving financial institutions the ability to maximize communication with customers. In addition, Texas Digital's OmniVUE Outdoor LCD will be available to Diebold customers, providing a 32", sunlight-readable, environmentally-sealed display in drive-up lanes.

Brad Stephenson, vice president of Diebold's physical security group, said, "Texas Digital's reputation of delivering high quality products along with excellent customer service makes them stand out among digital signage providers. The OmniVUE will be a market differentiator for Diebold and VitalCAST's robust capabilities will be valuable for our customers."
